

# De-Stinker Solution

From the Kitchen of: Katie K9

This will help with any bad smells — skunk spray, dead fish, or that occasional unidentifiable odor...

## Ingredients:

1 quart 3% Hydrogen Peroxide

1/4 cup Baking Soda

1 Tbsp. liquid dishwashing soap

A pail

A sponge

## Instructions:

Mix all ingredients together in the pail. It will foam a lot!

Sponge the solution onto the dog. **DO NOT** get it near the dog's **eyes** and **DO NOT** let them **lick** it off.

Let the solution stay on the dog for **3 to 5 minutes**. Keep the dog on a short leash during this time so you have control of the situation. If the dog tries to shake off, please your hand on the back of the neck and give them your growl (AHHHHH — remember — low and slow growl).

**Rinse** the dog with warm water. Remember to be careful of the dog's eyes and mouth.

**Towel** the dog dry and take a big sniff! If necessary, repeat!
